Bill

Longer this lasts, it will create impetus for others to grow across the country, and it will entrench who are starting to blockade other parts of the country. By shutting this down strongly we discourage others by showing them the consequences.

Please know that this is hard for me to advocate as I don't believe in brute force, nor using police/military to resolve issues in a democracy. But this is morphing into something quite different and dangerous.

From WINDSOR MAYOR COS: Legal update: City might not be the main applicant to serve as legal success however we will support as intervenors
